

Full / Half / Quarter Beef

Pasture-raised on our farm in Manheim — fill the freezer once at our best price per pound

Pricing — on hanging weight

Quarter (~200 lbs hanging → ~120–130 lbs of beef)	\$4.75 / lb
Half (~400 lbs hanging → ~240–260 lbs of beef)	\$4.60 / lb
Whole (~800 lbs hanging → ~480–520 lbs of beef)	\$4.50 / lb

Butchering is separate, paid to the butcher (Smuckers, etc.) at pickup — about \$1.25–1.35/lb hanging for a simple order, a little more for extras like patties or beef sticks.

How it works

1. **Reserve:** call or text **717-803-1649** — quarter, half, or whole. We'll book the next butcher appointment closest to when you want your beef.
2. **Cut sheet:** tell us (or the butcher directly) how you want it cut — steak thickness, roast sizes, how much ground. First time? It takes 10 minutes and we'll walk you through it.
3. **Drop-off & farm payment:** we deliver your animal to the butcher. Once the hanging weight is known, payment to Tui Farms is due — price per pound × hanging weight.
4. **Pickup:** when your beef is cut, vacuum-packed, and frozen, we'll let you know — pick it up at the butcher and settle their bill there.

Quarters: the butcher cuts down to halves, so two quarters share one cut sheet and we split the half into two shares as equal as we can make them.

A half beef, worked out

~400 lbs hanging weight → roughly 240–260 lbs of packaged beef

Beef: 400 lbs × \$4.60 = **\$1,840** · Butchering: ~400 × \$1.25 = **~\$500**

≈ \$2,340 all-in — under \$10 per pound in your freezer, filet mignon included.
